

Study in **Canada**

Canada, the second-largest country by area, occupies the northern two-fifths of North America and is one of the most sparsely populated nations. It is officially a bilingual country with English and French-speaking people. Its capital, Ottawa, is located about 250 miles northeast of Toronto, the largest city. Canada has a growing industrial economy and offers a high standard of living, with free primary and secondary education and significant investment in post-secondary studies. The country spends more money on the education of its citizens. Canadian colleges and universities are known for their superb reputations worldwide, making Canada the most educated country, boasting the highest proportion of college graduates.

MAP OF CANADA
